

Case study: Collaborative approach to reducing waste

OzHarvest & ReSmart

Our partnership

OzHarvest is Australia's leading food rescue organisation, driven by their mission to "Nourish our Country." **We support their waste efforts by collecting soft plastics and polystyrene.**

Residents can also **donate packaged food through our Pickup** service and we deliver it to OzHarvest, making it easier than ever to reduce waste.

"ReSmart's pickup service is fantastic! Protecting our planet is part of our mission, so knowing we can rely on ReSmart to pick up all our soft plastics, foam boxes, waste fabrics and e-waste all in one hit is fantastic (and very easy). The pickup on demand and the whole process is seamless and cost effective – everyone at OzHarvest loves it!" – Michael Van Stom, OzHarvest

Hard-to-recycle items we collect for them:

Soft plastics

Packaged Food

Polystyrene

E-waste

Textiles

The outcome: a streamlined recycling solution for hard-to-recycle items.
